

David Weeks Studio

Thank you for your purchase of David Weeks Studio lighting. We are proud to offer a full range of lighting products solely made in the USA. We use only the highest quality UL-compliant components from the USA and Europe. Each lamp is handcrafted and assembled in our Brooklyn, NY shop. We make every effort to produce our lights to the highest standards.

Warranty: David Weeks Studio (DWS) will guarantee its products to be free from defects in workmanship for a period of five (5) years from the date of shipment. Parts and materials are guaranteed to be free of defects for one (1) year from date of shipment. During this warranty period, DWS will repair or replace, at its option, free of charge, products or parts that are proven to be defective. This warranty does not apply to damages resulting from accident, abuse, alteration, tampering, misuse, mishandling, or negligence. Defective products will be replaced within the normal production time period required to reorder and manufacture the same product.

Transportation of fixtures in need of repair will be the responsibility of buyer. Handling of fixtures in transport will be the responsibility of buyer. DWS will not be held responsible for damages that occur during installation, or by transportation after the initial packing material is removed.

DWS will not be responsible for any products subjected to inappropriate application or fixtures installed or modified in any way that is not in accordance with DWS instructions. Any modification of fixtures absolves DWS of any liability and voids warranty.

Care & Cleaning: DWS lamps primarily use nickel-plated steel. We buy our steel from the best steel yards in the tri-state area. We have made every effort to acquire the cleanest material available, but all raw materials have a level of imperfection. We try to eliminate as many imperfections as possible, however, buyer should be aware that there may be tiny imperfections due to the handcrafted nature of the fixtures.

Many metal finishes are applied by hand and may vary in color, tone and character. While DWS will make every effort to match a finish, no guarantee can be made of an exact match. Manufacturer does not guarantee finishes against fading and oxidizing. Regular polishing is recommended. Arms, hardware and shades can be cleaned with a mild, non-ammonia-based spray cleaner or soft cloth to remove fingerprints or dust. Check to ensure that chosen cleaner is safe for your particular finish; if unsure, we recommend testing a small hidden area for reaction.

Lamping: Please consult accompanying directions to determine the type of bulb required. These fixtures are balanced with a specified bulb, and only one style of bulb is used with each fixture. Using an unspecified style of bulb, or mixing different types of bulbs could inhibit fixture's ability to balance or function safely. It is imperative that suggested wattage is adhered to. Any damage caused to the fixture due to higher than recommended watt bulb, or due to non-recommended bulb, will void warranty.
